

Give disposable overshoes the boot.

Say goodbye to dirt and grime and say hello to YULEYS® from HexArmor, the reusable, slip-on boot cover that's helping even the dirtiest jobs clean up their act. The typical disposable overshoes are slippery, expensive, and after spending one day on the job, they spend a lifetime in a landfill. YULEYS can be easily slipped into and used thousands of times, while providing greater traction and protecting floors and walls.

YULEYS Are Hands-Free

YULEYS hands-free design allows you to easily slip them on and off without bending over or using your hands. Once on, the patent-pending design includes a heel-lock system that keeps them firmly on your feet, and the slip-reducing tread keeps your feet firmly underneath you for a more confident step on wood, tile, linoleum and other surfaces.

Industrial Strength For Any Industry

These industrial-grade work boot covers are a perfect fit for in-home service workers, industrial workers entering sanitary work areas, food prep and agriculture, and people working in clean rooms and sterile environments. Save yourself the time of taking off your boots, or the cost and inconvenience of going through boxes of disposable overshoes, and take a step in the right direction.

The YULEYS Solution

Designed to help you get your work done quickly and efficiently without making a mess.

- Hands-free on-and-off
- Heel-lock system
- Flexible design
- Slip-reducing tread
- Specifically designed for safety footwear
- Reduces effects on landfills
- Industrial-grade SEBS rubber
